Digital Version of Instructions

Samsung Galaxy A21s

User Instructions

PLEASE DO NOT UPDATE THE ANDROID OS

WiFi

Joining WiFi networks

On the applications screen, tap **Settings > Connections > WiFi**, and then drag the **WiFi** switch to the right to turn on.

Select a network from the list of detected WiFi networks, enter a password if necessary, and then tap Connect. Networks that require a password appear with a lock icon. After the device connects to a WiFi network, the device will automatically connect to it any time it is available.

Forgetting WiFi networks

Any network that has ever been used, including the current network, can be forgotten so the device will not automatically connect to it. Select the network in the networks list, and then tap **Forget**.

Notifications

Notifications will appear at the top of the screen; these will be SMS messages, Facebook updates or Network messages etc. To see these simply slide your finger from the top of the screen down and it will pull down the notifications.

Thank you for choosing Cellhire

Basic Phone Operation

To power phone on/off
Press and hold the Power button
for a few seconds.

Making a call

Tap **Phone** on the Home or Applications screen. Enter the number using the keypad, and then tap  or make a call from the contacts list.

Receiving a call

When a call comes in, swipe  from left to right of the screen.

Email

Tap the **Google Folder/Bubble**, then tap **Gmail**.

Setting up email accounts

To set up your email account:
Tap '+ Add an email address'.
Select email type.
